About This Game

Once again, your mission is to penetrate a strange organization's infrastructure to discover their secrets. Your employer needs help discovering who is out to get her and she only trusts you to take on this perilous mission. Hack Time uses old-school prompts (like DOS and UNIX) to access virtual programs and systems. Gain access to users' files and emails to discover new ways to dig deeper and deeper.

Note: Hack Time is the third installment in the Hack RUN series. You should try the first version 'Hack RUN' before starting this game.

Thank you for accepting my offer. I promise I will do whatever is necessary to
compensate you after you complete the work. Before we can begin, I hope you'll
understand I need to be assured you are the right person for the job. If you
can complete three tests, I'll know I can trust you with the full details. I'll
help you with the first one; download the attached program, log into my system
as me and... well, if you're as good as I've heard, you'll know what to do
after that.
Good luck, Alex.
I'll be waiting for you.
